

DXB Development and Solutions

Hardware from anywhere. Delivered everywhere.

IT hardware sourcing for business buyers, from screened suppliers worldwide, through our Dubai hub.

For buyers

dxbds.com

One request. The whole market.

Send a part number, quantity and destination. We ask screened suppliers in several regions and come back with offers checked against your specification.

9+

sourcing markets, from the US and Europe to Japan and Singapore

8

product categories, from server CPUs to printers

6

documented steps from request to delivery

Cross-border hardware trade has real risks.

Our process is designed to reduce each of them.

Wrong part

A missing suffix or a different revision, and the part does not fit.

Wrong condition

Refurbished sold as new, tray instead of box, engineering samples.

Lost payments

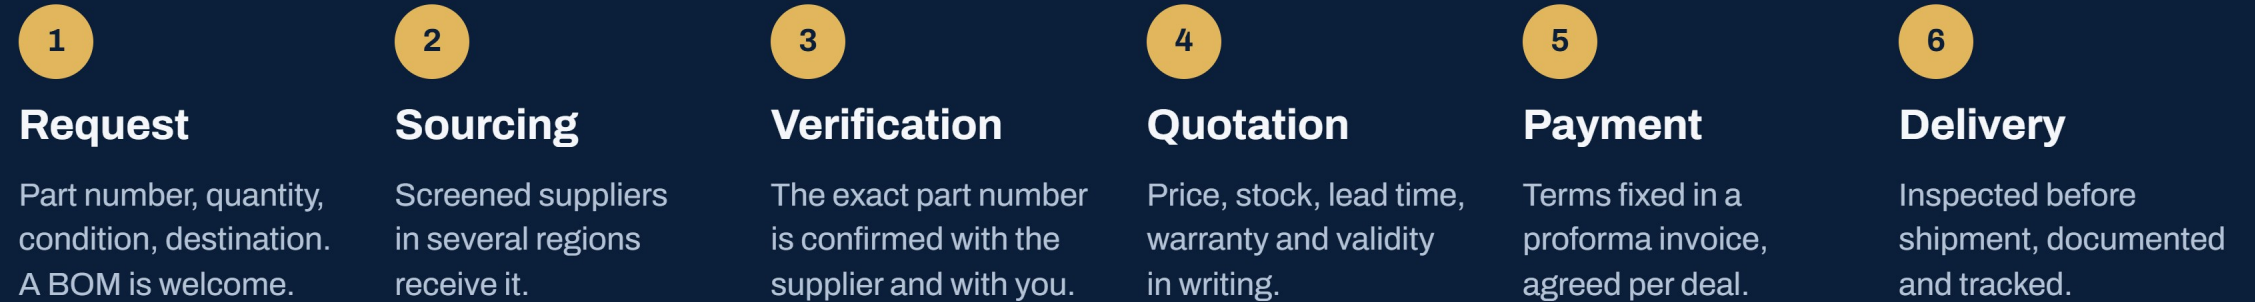

Prepayment to an unknown seller, with no documents and no recourse.

Slow quotes

Chasing vendors one by one, and still seeing a single price.

How a request works

Real market prices, side by side.

Condition

Stated in every offer

factory new, retail or OEM

The exact part, confirmed twice.

When an offer differs in any detail, nothing is quoted until both sides confirm the part number.

Common traps we check

6248 vs 6248R

Tray vs box

OEM vs retail

ES / QS samples

Regional versions

ECC, RDIMM, speed

SATA, SAS, NVMe

Every quotation, fully specified.

Photos

Goods are photographed against your order before shipment.

Serials and labels

Part numbers, labels and serial numbers are matched to the quotation.

On-site inspection

An inspection visit can be arranged on request, for an additional fee.

If a problem arises with a delivery, we resolve it with the supplier on your behalf, with the goal that you do not lose money.
